6 Summary

7 fastapp is a tool for jumpstarting the creation of deep learning projects with fastai
8 ([info11020108?](#)), (J. Howard & Gugger, 2020) and allows for easy command-line interfaces
9 and hyper-parameter tuning.

10 Statement of need

11 fastai allows for simple creation of world-class deep learning models. Designed for an interactive
12 notebook environment.

13 Most machine learning models never go into production [[https://venturebeat.com/2019/07/19/why-](https://venturebeat.com/2019/07/19/why-do-87-of-data-science-projects-never-make-it-into-production/)
